The customer has the option of placing a tarp, sheets of plywood or any other type of barrier over the dumpster to prevent the entry of rain or snow. Additionally, the dumpsters are not water-tight and will not hold water beyond the saturation of materials in the dumpster.

Please understand that our company has to pay the landfill for the disposal of the contents of your dumpster. We are charged based on weight and if a dumpster is heavier because of water saturation, we still have to pay the landfill too. No discounts or rebates will be given if rain affects the weight of your dumpster.
